directions:

Air-fill the black MagicArch™ using the lower speed on the Mini Cool Aire® Dual Pro™.

Helium inflate the 36" foil poodle balloon with the foil tip on your regulator. Tie with an uninflated 260 Qualatex® balloon. Take the other end and insert into the hole in the MagicArch™ and tie the uninflated 260 balloon securely to a Heavy Weights™.

Air-fill two pink 6" Qualatex® hearts. Tie the necks together to form a duplet. Air-fill another identical duplet and twist the two together to form a four balloon cluster. Slip the four balloon cluster between the 36" foil poodle balloon and the MagicArch™.

Helium inflate three coordinating 18" foil balloons. Attach the ribbon to the bottom of the stem. Tape the balloon cluster to the 36" foil poodle balloon.
