 Mini Cool Aire®
 Dual Pro™

BR74HG
 Dual Foil +
 Latex Regulator

directions:

Air-fill eight red 6" LINK-O-LOON® and tie end to end.

Air-fill two red 6" LINK-O-LOON®. Tie the necks together to form a duplet. Air-fill another identical duplet and twist the two together to form a four balloon cluster. Inflate five clusters. Air-fill sixteen 5" black Qualatex® balloons to 2". Tie black balloons to the stingers on four of the red clusters. (One cluster will have no black 2" balloon attachments.)

Tie the uninflated red 260 balloon to the middle of the four balloon cluster without black attachments. Attach the opposite end of the uninflated 260 balloon to a Heavy Weights™. Stack one four balloon cluster with black attachments on top. Wrap the 260 balloon around to secure. Lay the eight balloon chain around the cluster stack. Attach the eight balloon chain with the 2" black attachments.

Helium inflate three Party Zone football foil balloons. Tie with black ribbon and attach four balloon cluster with black attachments to each stem. Anchor the football balloons to the Heavy Weights™ located at the bottom of the balloon base.

Air-inflate three more 5" black Qualatex® balloons inflated to 2". Make a duplet, add a third balloon, and wrap to the center of the balloon base to conceal the mechanics.
