

## Fireworks Column

OVER  
10'  
tall!

1-ea 0737-36  
Patriotic  
71" Rocket Balloon

**Fireworks Column**

**ingredients needed:**

**4-ea Q-05-21**  
 5" Dark Blue  
 Qualatex®

**8-ea 11-653**  
 11" Ruby Red  
 w/ White Stars  
 Qualatex®

**1-ea Q-36-21**  
 3' Dark Blue  
 Qualatex®

Citrine Yellow  
**5-ea 79ST-09**  
 9" Qualatex® Star  
**4-ea 79ST-04**  
 4" Qualatex® Star

Sapphire Blue  
**5-ea 71ST-09**  
 9" Qualatex® Star  
**4-ea 71ST-04**  
 4" Qualatex® Star

Ruby Red  
**4-ea 13ST-09**  
 9" Qualatex® Star  
**4-ea 13ST-04**  
 4" Qualatex® Star

Qualatex® Entertainer Balloons:

**Q-260-53**  
 9-ea Ruby Red

**Q-260-28**  
 10-ea White

**Q-260-21**  
 10-ea Sapphire  
 Blue

**94291**  
 2-ea Clik-Clik™  
 Adhesive Strips

**HF118**  
 ULTRA HI-FLOAT®

**W21**  
 1-ea Heavy  
 Weights™

**equipment:**

**831**  
 Mini Cool Aire®  
 Dual Pro™ Inflator

**BR74HG**  
 Dual Foil +  
 Latex Regulator

**8360Z**  
 Air Inflator

**HS870**  
 Maxi Seal®  
 Heat Sealer

## Fireworks Column

### directions:

Air-fill two 11" ruby red latex balloons to 11" and tie the necks together to form a duplet. Air-fill another identical duplet and twist the two sets together to form a four-balloon cluster. Repeat steps to make a 5" dark blue cluster. Tie an uninflated 260 balloon to a Heavy Weights™ balloons weight. Lay the 11" ruby red cluster on top of the balloon weight and wrap the 260 uninflated balloon around to secure. Lay the 5" dark blue cluster on top and secure with the 260.

Air-fill the Rocket Balloon. Apply two Clik-Clik™ adhesive strips facing each other to the bottom of the Rocket. To secure the Rocket, tie an uninflated 260 balloon into the holes of the adhesive strips. Wrap the uninflated 260 balloon around the clusters and tie into the balloon weight.

Air-fill and heat seal twenty-six 9" and 4" stars.

Air-fill twenty-six 260 balloons leaving about 2" uninflated. Tie the stars to the knot-end of the 260 balloons. Tie the 260 balloons together at the uninflated end to form duplets. Set aside.

Treat the 3' dark blue balloon and four of the 11" ruby red latex balloons with ULTRA HI-FLOAT® to ensure the longest possible floating time.

Helium inflate the 3' balloon and tie. Secure an uninflated 260 balloon above the knot. Tie the 3' balloon with the uninflated 260 balloon to the top point of the rocket. Secure tightly, leaving some play in the balloon. Helium inflate the 11" ruby red balloons and make a four-balloon cluster. Secure the four-balloon cluster under the 3' balloon. You will have plenty of movement in the uninflated 260 balloon to secure all of the 260 duplets. Keep wrapping the duplets in, one at a time, until you get the desired look.
