 Precision Air
 Inflator

BR74HG
 Dual Foil +
 Latex Regulator

It's Party Time

directions:

Air-fill two-5" wild berry Qualatex® balloons to 4" and tie the necks together to form a duplet. Air-fill another identical duplet and twist the two sets together to form a four-balloon cluster. Inflate five wild berry balloon clusters.

Helium inflate all of the foil balloons with the foil tip on the regulator and tie each stem with a half of an uninflated 260 balloon. Attach a weight to each balloon. Apply two Clik-Clik™ adhesive strips facing each other to the top of each Diamondz™ balloon and the 18" foil balloons.

To assemble: Tie one of the Diamondz™ balloon stems to a Heavy Weights™ balloon weight. Follow the order in the picture and tie each foil balloon to the adhesive strips on top of the previous balloon. Tie the 25" foil balloon to the top of the column. To finish, wrap the wild berry balloon clusters around each attachment point to hide the mechanics of the column.
