Some Bunny Loves You Bunches

directions:

Helium inflate three foil balloons with the proper tip on the helium regulator. Tie on ribbon. Place on the balloon holder to secure safely.

Place the plush bunny vase hugger around the vase.

Cut several 6" strips from the roll of cello paper. Cut the strips into squares. These will become cello tufts. To make a cello tuft, squeeze one of the squares in the middle to make a bow-tie shape. Repeat with another square to end up with two bow-tie shaped cello tufts. Stack the two tufts in opposite directions and secure by tightly tying the centers together with curling ribbon. Set aside.

Air-inflate a 5" white latex balloon to approximately 2 inches. Slip the un-inflated geo blossom onto the stem of the inflated white balloon just above the knot. Inflate the other white balloon to the exact size of the first and tie to the stem of the first inflated white balloon. You now have two white inflated balloons with an un-inflated geo in the middle. Air-fill the geo until full and tie. Place the stem of the geo balloon into the erecto cup and hook into place. Insert the balloon stick into the Erecto Cup. Peel off the protective paper from a round candy box tape. Stick it to the mini base. Secure the mini base into the bottom of the vase by peeling off the protective paper from the adhesive. Place the polka dot cello tuft into the neck of the vase. If you want to secure the tufts dip into the glue pan and fasten the tufts to the straw. (You don't want to glue to the vase as this could damage the vase preventing it from being re-used by the recipient).

Arrange the foil balloon bunch. Tie the balloon bunch to the plush bunny using the easy tie ribbon loop.
