Inflator

directions:

Helium inflate the 36" foil shape with the foil tip of the inflator. Tie the sheer ribbon directly to the stem of the foil balloon. Attach the ribbon to the balloon holder for safe keeping. Helium inflate the two rose shaped balloons and attach the scarlet sheer ribbon to the stems.

Take the balloons out of the balloon holder and arrange with the 36" foil shape on top. Rest the rose shaped balloons directly underneath the 36" foil. Tie directly to the foil weight.

To decorate your box of candy, tie a small piece of sheer ribbon around the candy box and secure to the foil weight. Make a small three loop bow to add interest to the box. To upgrade your balloon bouquet, add shorter lengths of ribbon to the necks of each foil balloon.
