

# Walking Smiley Guy

## ingredients needed:

**002926**  
 Smiley Face  
 Bubbles™ Balloon

**7704936**  
 36" Foil Shape  
 Balloon

**Q0550**  
 14-ea Jewel Asst.  
 5" Latex

**Q35041**  
 1-ea Black 350  
 Latex

**Q16041**  
 3-ea Black 160  
 Latex

**W21**  
 2-ea Heavy Weights™

## equipment:

**829**  
 Twist-N-Flate™  
 Inflator

**BR74HG**  
 Dual Foil + Latex  
 Inflator

**831**  
 Mini Cool Aire®  
 Dual Pro™ Inflator

**15001**  
 Monofilament

## directions:

Air-fill with the Mini Cool Aire® Dual Pro™ Inflator one–350 black entertainer balloon. Leave 1" un-inflated and tie off. Air fill with the Twist-N-Flate™ Inflator one black entertainer balloon and tie off. Find the center of the balloon and twist. Tie each end of the balloon to a Heavy Weights™ to make the legs. This will allow the finished balloon man to have the proper weight. Tie the inflated 350 balloon to the 160 center point.

Helium-inflate the smiley Bubbles™ Balloon with the latex tip on the regulator. Fill until the balloon is wrinkle free. Tie the other end of the black 350 balloon directly to the stem of the Bubbles™ Balloon.

Air fill two–5" jewel tone balloons to 4" and tie the necks together to form a duplet. Air-fill another duplet and twist the 2 sets together to form a 4-balloon cluster. Repeat the step above to make a total of 3 clusters. Air-fill two–5" balloons to 3" for the hands. Wrap 2 clusters directly above the balloon weight on each leg. Wrap the remaining cluster around the stem of the Bubbles™ Balloon.

Air-fill two–160 balloons with the Twist-N-Flate™ to make the arms. Inflate the balloons fully. Gently let out some of the air to make the balloons soft before tying. This will allow you to manipulate the balloons to form the elbows. Tie the balloons together. Wrap the balloons around the neck of the man. About half way down the 160 balloon, gently squeeze a small pinch of air and twist the balloon. This is called a pinch twist. This will form the elbow. Repeat on the other balloon. Tie the 3" balloon to the end of the arms to make the hands.

Helium-inflate the foil shape balloon. Tie the balloon with monofilament line. Secure the other end of the mono line to the neck of the man.
