### directions:

Helium inflate the Bubbles™ Balloon with the latex tip on your regulator. Fill the balloon until wrinkle free. Cut the pre-attached ribbon off the balloon and tie on the black curling ribbon. Secure the ribbon on the balloon to the holder for safe keeping. Helium inflate 3-Love-o-Rama 18" foil balloons and tie with black ribbon. Secure the ribbon to the balloon holder.

Remove the cup from the pre-inflated 9" foil balloon. Tape the stem of the balloon back onto itself. Tape the heavy weight to the bottom of the foil balloon. Attach 2 Adhesive Tabs facing each other on top of the 9" balloon.

Take the balloons out of the balloon holder and arrange the balloon bunch, with the Bubbles™ Balloon on top. Rest the three-18" foil balloons directly underneath the Bubbles™ Balloon. Tie directly to the hole on the Adhesive Tap on the 9" balloon. Add a few curls of ribbon.
