**W21**  
Heavy Weights™

### equipment:

**831**  
Mini Cool Aire®  
Dual Pro™ Inflator

**BR74HG**  
Dual Foil + Latex  
Inflator

Air-fill two 5" black balloons to 4 inches and tie together to form a duplet. Air-fill another identical duplet and twist the two sets together to form a four balloon cluster. Repeat the steps above to create a total of two 5" balloon clusters. Air-fill one of the metallic orange MagicArch™ balloons.

Helium inflate the ghost shape balloon with the foil tip on your regulator. Tie an un-inflated 260 balloon to the stem of the ghost balloon. Insert the 260 balloon tied to the stem of the Ghost through the hole in the MagicArch™ and tie directly to a Heavy Weight™. Add one of the air-filled 5" black clusters between the ghost and the MagicArch™ to hide the connection. Lock the 5" cluster in place by twisting.

Next, helium inflate the 26" 'Trick or Treat' See-Thru™ balloon. Attach a ribbon to the stem. Helium inflate the MagicArch™ and insert the ribbon from the See-Thru™ balloon into the hole in the MagicArch™ balloon. Add the air-filled 5" black cluster directly below the MagicArch™ balloon. Lock into place by twisting. Attach the ribbon to the hands of the ghost using strong, clear tape. Several pieces of tape may be needed to securely attach the balloon.
