 Latex Regulator

8360Z
 Air Inflator

HI795
 Qualatex®
 Hand Air Inflator

Moustache Stick Man

directions:

Using the Z60 air inflator, air-fill one yellow 350Q to desired length of leg and tie directly to a Heavy Weights™ balloon weight. Repeat this step for the second leg. Tie a knot in the other end of the balloon legs. Tie the legs together. Cut off any excess latex. Air-fill another yellow 350Q to desired height of body and tie directly to the center of the legs. Tie the other end in a knot.

Helium-fill the 33" Smiley foil. Tie the stem of the foil to the yellow 350Q body. Once securely tied, cut off excess latex from the 350Q. Tape the stem of the pre-inflated 14" moustache foil back onto itself. Apply three OASIS® UGlu™ adhesive dashes to the back of the 14" moustache and press onto the Smiley foil.

Air-fill two 5" black latex balloons and tie the necks together to form a duplet. Air-fill another duplet and twist the two sets together to form a four-balloon cluster. Repeat to make a total of three clusters. Air-fill two 5" black latex balloons to 3" for the hands, set aside. Wrap a cluster directly above the weight on each leg. Wrap a cluster between the 33" Smiley foil and the 350Q body.

Using the Z60 air inflator, air-fill one yellow 260Q to desired arm length. Tie directly to the 3" black latex hands. Knot the other end of the balloon. Repeat to make a second arm and hand. Tie the two arms together. Slide the arms into the black cluster around the neck and lock into place.

Apply ULTRA HI-FLOAT® to three 11" white printed latex balloons. Helium inflate these and tie with black curling ribbon. Make a bouquet and tie to one arm.
