Heavy Weights™
Balloon Weight

equipment:

BR74HG
Dual Foil +
Latex Regulator

802
SUREBONDER®
Glue Skillet

01560
OASIS®
Glue Pillows

directions:

Remove the cup from the 14" pre-inflated Linky heart. Using strong packing tape, tape the balloon stem back on itself. Tip the Linky on its side and tape a Heavy Weights™ balloon weight to the bottom. Apply two Clik-Clik™ adhesive strips to the top of the Linky heart.

Helium inflate the 22" Intricates™ foil using the foil tip on the regulator. Tie silver curling ribbon to the balloon stem. Tie directly to the Clik-Clik™ adhesive strips. Make a small bow using the silver curling ribbon and tie into the adhesive strips.
