

# I Love You Kisses

**ingredients:**

1-ea 22046-19  
 14" Pre-inflated Foil

1-ea 45070-18  
 17" Zebra Foil

1-ea 46383-36  
 34" Foil

2-ea 94291  
 Clik-Clik™  
 Adhesive Strips

448225  
 Cello Sheets  
 -Zebra

BZ3401  
 Curling Ribbon  
 -Zebra

1-ea W27  
 Heavy Weights™  
 Balloon Weight

**equipment:**

BR74HG  
 Dual Foil +  
 Latex Regulator

802  
 SUREBONDER®  
 Glue Skillet

01560  
 OASIS®  
 Glue Pillows

**directions:**

Remove the cup from the pre-inflated 14" lips. Using strong packing tape, tape the balloon stem back onto itself. Tape a Heavy Weights™ balloon weight directly to the bottom of the lips. Apply two Clik-Clik™ adhesive strips facing each other to the top of the lips.

To up-grade the 9" pre-inflated foil: Cut the 20" x 20" cello sheets in half. Cut in half again. This will make 10" x 10" sheets. To save time, leave the cello sheets in the package while cutting. Glue the 10" x 10" sheets around the base of the lips.

Helium inflate the 18" foil and tie zebra curling ribbon to the balloon stem. Apply two Clik-Clik™ adhesive strips facing each other on the top center of the 18" foil. Tie the ribbon into the adhesive strips on the lips. Helium inflate the 34" foil with the foil tip on your regulator. Tie curling ribbon to the balloon stem. Tie the other end of the ribbon to the adhesive strip on the top of the 18" foil. Enhance the adhesive strips with small bows made from the zebra curling ribbon.
