 Heavy Weights™
 Balloon Weight

equipment:

BR74HG
 Dual Foil +
 Latex Regulator

802
 SUREBONDER®
 Glue Skillet

01560
 OASIS®
 Glue Pillows

directions:

Remove the cup from the pre-inflated 14" lips. Using strong packing tape, tape the balloon stem back onto itself. Tape a Heavy Weights™ balloon weight directly to the bottom of the lips. Apply two Clik-Clik™ adhesive strips facing each other to the top of the lips.

Helium inflate the 34" foil. Use the foil tip on your regulator. Tie zebra curling ribbon directly to the stem of the foil balloon. Helium inflate the two 18" zebra foils and attach zebra ribbon to the stems.

Arrange the balloon bouquet with the 36" foil on top. Rest the 18" foil balloons directly underneath the 36" foil. Tie these directly to the adhesive strips.

Create the pull bow and glue to the 14" lips. Glue four pieces of cello to the pull bow.
