Anagram recommends the use of 3 Inkjet Printer Models with Floato<sup>™</sup>.  
(Printers shown for illustrative purposes only.)

Epson Workforce WF-7110 inkjet printer

Canon Pixma Pro-100 inkjet printer

Epson Stylus Pro 4900 inkjet printer

IMPORTANT: Anagram assumes no responsibility for results when any printer model other than those recommended is used.

It's easy to print the Floato™ balloon using the compatible inkjet printers + the free Floato™ App 2.0.

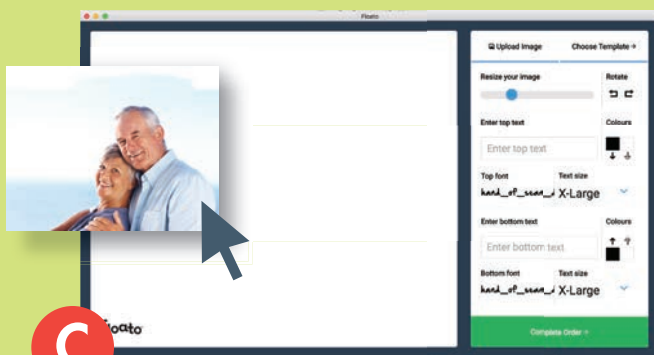

Sold separately:  
Canon Pixma Pro-100

## A Setup + Download

1. Connect the inkjet printer of your choice to your computer.
2. Download the App in either Windows or Apple format by searching [www.burtonandburton.com](http://www.burtonandburton.com) for Floato™, follow link, and install on computer as directed.

NOTE: Manufacturer assumes no responsibility for results when any printer other than the recommended printers are used.

## C Using the App

1. Drag your photo (jpg) or "Open" into the display window.
2. Adjust the size and placement of the image.
3. Type the balloon message in the text boxes. Choose from eight different fonts.
4. Choose the color of the text by clicking on the color picker.

47731-18 after customizing.

## B Load Printer

1. When ready to begin, carefully cut open plastic bag and remove a single Floato™ balloon.
2. To print, place Floato™ balloon into the printer with arrows pointing downwards towards the printer.

## D Printing

1. Click "Print" when photo design is ready.
2. Select correct printer and settings.

### IMPORTANT!

Floato™ CANNOT be printed with a laserjet printer. The heat produced will damage the Floato™ balloon.

**Floato™ is now ready for helium and a ribbon!!**

47731-18 after customizing.

**E**

### Prep for Inflation

1. Remove the balloon from the paper carrier assembly.
2. Slowly peel the top sheet from the folded balloon.
3. Carefully unfold the balloon "flaps" from the carrier paper and peel the paper from the balloon.

With **App 2.0**
